

May 20th, 2024 Council Meeting Highlights *Continued ...*

Council approved a new job description for a part-time choir director. This will become a paid position with additional duties. The Worship and Music team has designated a recruitment team to assist with filling the job.

The risk assessment process continues to move forward. Our consultant was present at services on Sunday, May 19 and observed the flow from a security perspective. Interviews with council members and church members will take place the week of May 27th. Council expects a report by the end of June.

We will be recognizing Cynthia Michael after our service on Sunday, June 23 for her years of directing the Grace choir. We hope church members will stay for fellowship and celebrate with her.
